DESCRIPTION

Handcrafted curved glass and metal vitrine, a fitting vessel for the display of precious objects—this unique work is topped with marble quarried from an island off the West Coast of Canada. Finished all sides, this piece is equally at home against the wall or defining the middle of a space. The nine sided, tapered bronze handles are carved by hand, to feel—each set is one-of-a-kind. Available to order in any of New Format's standard finishes—custom sizing and configuration for your project is the standard.

SHOWN

Shown in Black Carmanah Marble, Stippled Aged Brass, Blackened Steel,
Claro Walnut and Reeded Glass
